

Please Stand Firm for Marriage in Maryland!

Dear Maryland Legislator,

Please protect marriage during the 2012 session to ensure a healthy and thriving Maryland in the future. Marriage is unique and must be protected in law, since it is the only relationship capable of bringing children into the world.

Marriage is the foundation of every healthy, stable society. The stable relationship between a mother and father benefits society—especially children—in ways that no other relationship can. As a legislator, I urge you to protect and uphold our state's law recognizing marriage as between one man and one woman.
